

**Calculate  
total bill**

```
graph LR; A[Calculate total bill] --> B((Currency conversion)); B --> C[Process payment];
```

The diagram is a horizontal flowchart. It starts with a rectangular box on the left containing the text 'Calculate total bill'. A dark green arrow points from this box to a central light orange oval containing the text 'Currency conversion'. Another dark green arrow points from the oval to a final rectangular box on the right containing the text 'Process payment'.

**Currency  
conversion**

**Process  
payment**
